# SCRAM™

## CONTINUOUS ALCOHOL MONITORING

**Our flagship technology. The SCRAM Continuous Alcohol Monitoring™ system** is the world's most widely used and trusted 24/7 transdermal alcohol testing system. For high-risk, hardcore DUI and alcohol offenders.

## SCRAM Continuous Alcohol Monitoring™

Continuous Alcohol Monitoring (CAM), or combined CAM + House Arrest, at the flip of a switch. It's 24/7 monitoring for your high-risk/high-need alcohol clients.

**SCRAM Remote Breath™**
The first and only handheld, wireless, portable breath alcohol device with automated facial recognition and GPS with every single test. For your lower-risk offenders or those who have earned less intensive testing and monitoring.

**SCRAM One-Piece GPS™**
This OM400™ Global Positioning System technology is a one-piece location monitoring system that combines Omnilink's industry-leading accuracy and reliability with all-new RF compatibility, 2-way communication to send notifications to offenders, and a one-of-a-kind strap design that virtually eliminates false alerts.

**SCRAM House Arrest™**
Standalone house arrest monitoring built to work with today's home communications systems. Operates over home Internet routers, standard or digital phone lines, DSL, Vonage®, or an optional SCRAM-provided wireless system.

**The SCRAM Systems Compliance Platform™**
The SCRAMNET™ secure web application is the core of the platform, which brings together everything from monitoring of our full product suite to our best-in-industry court support program, 24/7 customer support, mobile applications, offender compliance analytics, and beyond.

> *I really believe that if judges and probation departments knew about this technology and understood how successful it is, it would be on the ankle of every alcohol dependent offender in the criminal justice system."*
>
> — **C. West Huddleston**
> CEO, National Association of Drug Court Professionals

## SCRAM Systems: **OPTIONS** in Alcohol Monitoring

- 1st time DUI
- Public order offenses
- Low BAC at time of arrest
- Earns reduced monitoring through program compliance

*Lower Level Alcohol Misuse*

*Higher Level Alcohol Dependence and Addiction*

- Repeat/Hardcore Drunk Drivers
- Domestic Violence
- High BAC at time of arrest
- Requires more intensive monitoring after a violation

**LOWER RISK**
SCRAM Remote Breath

**HIGHER RISK**
SCRAM Continuous Alcohol Monitoring

## Sober Days™

A Sober Day is a 24-hour period in which a monitored individual has no confirmed consumption of alcohol and no confirmed attempt to tamper or circumvent testing in order to mask the consumption of alcohol. To be a true Sober Day, a client must:

- Be able to present evidence-based confirmation of sobriety for each 24-hour period

- Be monitored transdermally in order to meet the required test frequency

- Be tested a minimum of once per hour every 24-hour period

- Be tested automatically, with no requirement to participate in testing

According to data from the 300,000 offenders monitored with SCRAM CAM technology, **99.3% of all offenders, every day, are completely sober and compliant.** No drinking, no tampering.

## FEATURES

- Independently tested, court-validated
- 24/7 Customer Support
- Dynamic, flexible training
- AMS Data Analysis of every alert
- TAC readings correlate to BAC readings with a 0.02 confirmation threshold

### CAM Bracelet
- Worn 24/7
- Automated, noninvasive
- Samples perspiration every 30 minutes
- Industry-leading anti-tamper technology
- Optional House Arrest curfew monitoring in one bracelet

### CAM Base Station
- Multiple ways to connect, including SCRAM Wireless™
- Automatically uploads and transmits data at prescheduled time(s)
- Downloads software updates from SCRAMNET™ to the CAM Bracelet
- SCRAM Direct Connect™ allows agent downloads in the office, on-demand, direct to a computer

### SCRAMNET
- Central, secure, web-based platform where all data is stored, analyzed, reported, and maintained
- User-friendly tool that aggregates, analyzes, and graphs test results
- Custom notification and reporting protocols
- Flags and graphically depicts alcohol alerts, obstructions, tampering, schedule noncompliance, battery and equipment information
- Integrates with all SCRAM Systems™ monitoring technologies

## BENEFITS

- 99.3% compliance each and every day
- National network of service providers
- Conclusively distinguishes between alcohol consumption and environmental alcohol sources
- Single-source admissibility—no back-up tests required
- Flexible data management—expand, consolidate, view at-a-glance assessments, or summarize an entire caseload
- Continuous testing means no drinking around test schedules
